Welcome to the 2020 Yukon Quest!

The 2020 Media Guide has been designed to help you navigate the Yukon Quest as it travels its lengthy trail through Alaska and the Yukon.

Please familiarize yourself with the Media Information and Protocol section as media are expected to meet this standard. **All media are required to attend the media briefing to receive their accreditation to be held on Friday, January 31 from 1-3pm in the Glacier Room at La Quinta Inn & Suites, in Fairbanks.**

Official information regarding the race can only be provided by the Yukon Quest Race Marshal and Head Veterinarian.

Food at checkpoints is supplied for the exclusive access of volunteers and mushers. Media are welcome and encouraged to purchase food where available but please be aware that many checkpoints and dog drops do not have food services for public and media. Please respect this and ensure you pack sufficient supplies for your trip.

Any sleeping arrangements at checkpoints, dog drops and other race venues are for the use of mushers, volunteers and race personnel. Do not assume that there will be space for you to bunk. Hotels and other accommodations are limited so ensure you plan ahead including bringing sleeping gear.

Some of the roads and areas can be treacherous for winter driving, and take much longer than planned. Fuel accessibility for vehicles and snow machines is limited in many places along the route. Familiarize yourself with what is available at each of your destinations and carry extra fuel. The race will not assume any responsibility for media or their transportation.

The trail travels over private property as well as national, federal and state parks. Access is not guaranteed and permission to film is required in some national, federal and state parks. It is media's sole responsibility to obtain the required permission, access and permits.

Internet access at remote checkpoints can be sporadic, so please be prepared. While access is planned at most checkpoints the race cannot assume responsibility for Internet access. Power supplies are not guaranteed and where generators are used only official race operations will have access to the power supply – ensure your equipment is fully charged and bring extra batteries.

Computer equipment, including extension cords and power splitters, will not be provided by the Yukon Quest anywhere along the trail. Please bring all necessary cables, adapters and power/extension cords for both phone and Internet.

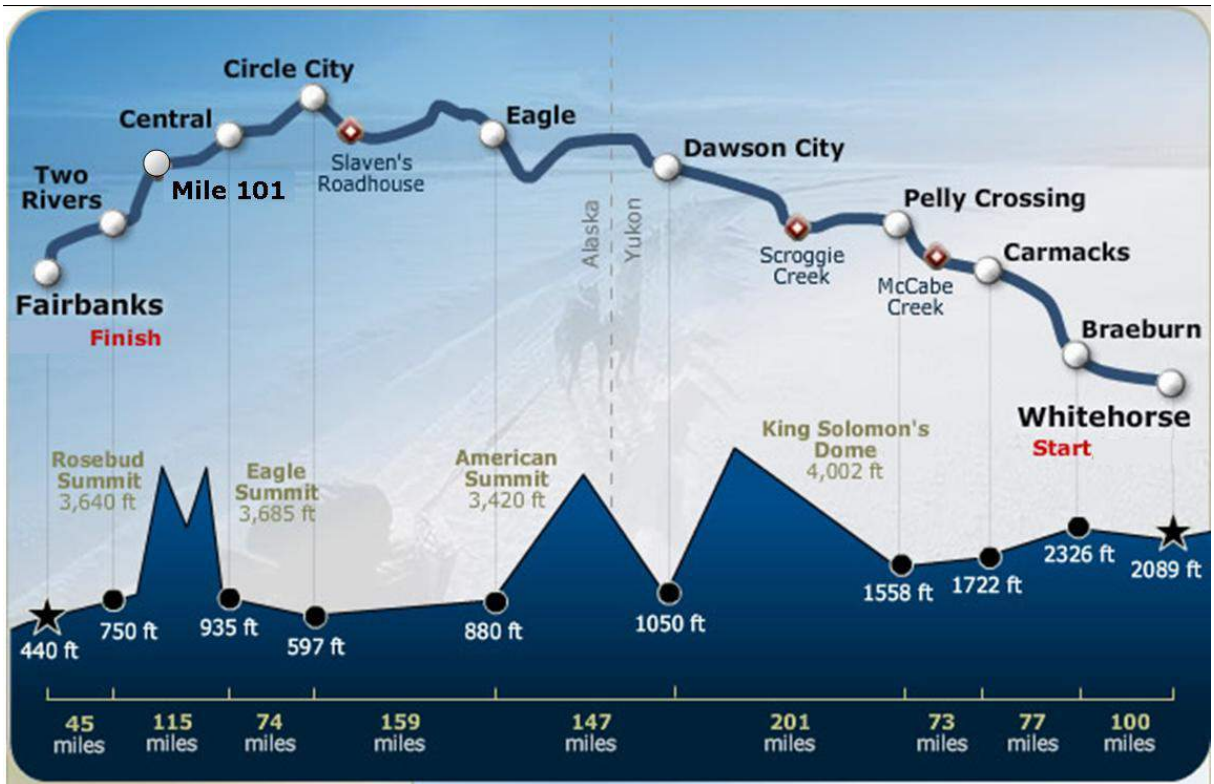

Where Internet access is available, the Yukon Quest website will be a valuable tool to access up-to-date information, including race results, media releases, photos and musher profiles.

For Your Calendar

Wednesday, January 29 6:30 pm	Meet the Musers at La Quinta Inns & Suites, Fairbanks
Thursday, January 30 5:00 pm	2020 Start and Draw Banquet at Westmark Gold Room, Fairbanks <i>Dinner with the 2020 mushers and bib draw for 1,000 mile race (tickets limited, \$70 US)</i>
Friday, January 31 1 pm – 3 pm	Media Briefing at La Quinta Inns & Suites, Glacier Room, Fairbanks <i>*Mandatory attendance for accredited media</i>
Saturday, February 1 11:00 am	Yukon Quest Race Start, Fairbanks
Saturday, February 1 3:00 pm	YQ300 Race Start, Fairbanks
February 10 to 14	QuestFest Week at the Frank Slim Building in Shipyards Park, Whitehorse.
Friday, February 14 7:00 pm	Meet the Musers at Mount McIntyre Recreation Centre Grey Room, Whitehorse
Saturday, February 15 5:00 pm	2020 Finish & Awards Banquet at the Yukon Convention Centre, Whitehorse <i>Dinner with the 2020 mushers and award presentations (tickets limited, \$85 CAD)</i>

Route Map

Distances*

	MILES	KM
Fairbanks to Two Rivers	73	117
Two Rivers to Mile 101	41	66
Mile 101 to Central	28	45
Central to Circle City	74	119
Circle City to Slaven's Roadhouse	60	96
Slaven's Roadhouse to Eagle	100	160
Eagle to 40 Mile River	102	164
40 Mile River to Dawson City	48	77
Dawson City to Scroggie Creek	105	169
Scroggie Creek to Stepping Stone	73	117
Stepping Stone to Pelly Crossing	32	51
Pelly Crossing to McCabe Creek	34	55
McCabe Creek to Carmacks	39	63
Carmacks to Braeburn	77	124
Braeburn to Whitehorse	100	161

*All distances are approximate as trail routes vary year-to-year.

History

In February 1983, historian Roger Williams and musher Leroy Shank sketched out their idea of a rugged, 1000-mile race over dinner with friends at the Bull's Eye Saloon, east of Fairbanks, Alaska.

They envisioned a race independent of the demands of big media - with rules so tough that only mushing "purists" would participate.

They would name it "Yukon Quest" - after the 'old highway of the North,' the Yukon River. The trail follows old travel routes along the river and its tributaries. Add Lord Tennyson's description of the Quest as an expedition of knights in 'The Holy Grail'.

It would be a true test of human and canine endurance and commemorate the historic dependence for mutual survival of the arctic, for humans and their sled dogs.

Williams and Shank went on to raise \$50,000 in prize money and stirred up an incredible 400 volunteers and in February 1984, 27 teams burst out of the start chute in Fairbanks in the first Yukon Quest International Sled Dog Race.

The Yukon Quest International Sled Dog Race thanks the countless mushers, handlers, volunteers, sponsors and individuals who have made this historic race possible.

The Yukon Quest – 37 Years and Running!

Media Information & Protocol

Responsibility for compliance with these protocols rests with the accredited media personnel and not with the pilot or guide. In fairness to the mushers, the safety of the dogs and the equity of the race, the following protocols will be enforced:

1. Media accreditation must be worn at all times when in specified media areas including photography zones, media Internet access areas and interview areas. ***Only camera crew and photographers can access photography zones due to limited space.*** Accreditations are not transferable.
2. Start Line: accredited photographers and camera crew only will be permitted in the start chute and will be required to follow the direction of the Public Relations Team, Race Marshal and Race Judges.
3. Finish Line: a designated photography area will be identified at the finish line. After completing the required finish line check-in process with Race Personnel we will request that mushers enter an interview area where media will have access for interviews. ***Once interviews have been completed, photographers must have clear access to the mushers for team photos, which means accredited journalists must vacate the photo area.***
4. Checkpoint arrival: upon the arrival of a team at a checkpoint, Race Personnel require unhindered access to mushers and dogs. Photographers and reporters must stay clear. A designated photography zone will be identified where possible. ***When the check-in process has been completed mushers may consent to be interviewed.***
5. Access to the dog feeding and resting area (dog yard) at checkpoints and official dog drops is restricted to mushers and Race Personnel only. Media personnel are permitted to take photos of mushers and dogs in the dog yard while remaining outside the area. ***If media personnel wish to go inside the dog yard for photos or video, they can ask the Public Relations Team, Race Marshal or Race Judge to escort them.*** The Dawson City dog area will have “open” hours and other specified locations may be opened to media for limited access.
6. You must respect a musher’s right to privacy. If a musher indicates they are not interested in being disturbed, they must not be bothered.
7. A snow machine can destroy the trail surface, imposing an unfair disadvantage on subsequent teams. Snow machines with paddle tracks cannot be used on the trail under any circumstance. Media are expected to research and ensure they have appropriate escorts or expertise for trail travel. Use caution and drive slowly. Dog teams have the right-of-way. When dog teams are nearby, leave the trail at a 90-degree angle and turn off your engine. You must be 10 feet (3 metres) off the trail.

8. All aircraft must stay at least 1,000 feet (400 metres) away from a team – i.e. above or to the side. On the ground, aircraft must be well off the trail and completely shut down when a team is in view. A dog team, under no circumstances, may be “buzzed”.
9. Refer to legal requirements in Yukon and Alaska when operating drones. Drones cannot be operated within one mile of an airport, therefore, zone operations at the finish line are prohibited.
10. Flash photography or the use of artificial lighting is permissible only in the immediate vicinity of checkpoints and dog drops, except with the advance consent of a musher.
11. Communications personnel and volunteers working the race cannot provide the media with any information beyond what is publicly available on the website.
12. Mushers may register an official protest against any person or action considered detrimental or obstructive to their race effort – including members of the media.
13. There are cabins along the trail that may not be official checkpoints, but may be open to mushers. Mushers and Race Personnel have priority access. Do not use these cabins unless you have permission from the cabin owner.
14. Media who violate these rules will have their media accreditation revoked. If this happens, they will no longer have access to any media or photography zones.

Additional Information

Mushers may have difficulty talking about themselves, however, will usually talk about their dogs. If your deadline allows, better interviews happen after the mushers have rested, not right when they get into the checkpoint.

Another option for interviews is the handlers and the checkpoint volunteers. Handlers assist the mushers and have not endured the rigors of the trail. They possess great knowledge of the dog teams and canine care. Generally, checkpoints are staffed by local volunteers. While they cannot provide official race information, some may provide interesting stories about the communities along the trail.

Familiarize yourself with the race rules as they will provide useful information. They are available online.

Do not help the mushers as there are very strict rules against mushers receiving outside assistance.

Do not touch the dogs.

2020 Mushers

	Last Name	First Name	Experience	Residence	Nationality
1.	Beattie	Richie	Veteran	Two Rivers, AK	American
2.	Campeau	Jason	Veteran	Rocky Mountain House, AB	Canadian
3.	Cooke	Rob	Veteran	Whitehorse, YT	British/ Canadian
4.	Dalton	Dave	Veteran	Healy, AK	American
5.	Failor	Matthew	Veteran	Willow, AK	American
6.	Kohnert	Torsten	Veteran	Sluffors, Sweden	Swedish

17.	Tweddell	Louve	Rookie	Whitehorse, YT	Canadian
18.	Webster	Olivia	Rookie	Fairbanks, AK	American

Updated as of Press Time

Frequently Asked Questions

How much does the champion get?

In 2020, the champion will receive \$18,930, which is 18.93% of a total \$100,000 purse.

What are some of the main differences between the Yukon Quest and the Iditarod?

- **LOCATION:** The Yukon Quest trail is half in Canada's Yukon Territory and half in Alaska, USA, whereas the Iditarod trail is entirely in Alaska.
- **NUMBER OF DOGS:** Teams in both the Yukon Quest and Iditarod start with a maximum of 14 dogs. The Yukon Quest requires a minimum of six dogs to stay in the race, whereas the Iditarod requires five dogs.
- **NUMBER OF CHECKPOINTS:** The Yukon Quest has nine checkpoints whereas the Iditarod has 22, making the distances between checkpoints longer, on average, in the Yukon Quest, and requiring Yukon Quest mushers to camp along the trail significantly more often than in Iditarod and to pack their sleds more heavily.
- **TIME OF YEAR:** The Yukon Quest begins in February; the Iditarod begins in March. This difference allows for warmer temperatures and longer days (more light) in the latter race.
- **TERRAIN:** Because the Yukon Quest Trail crosses four mountain ranges, teams experience significant elevation changes during a race; the Iditarod crosses over one mountain range.
- **TRAIL HISTORY:** The Yukon Quest Trail dates back to 1870s to the Forty Mile Gold Rush Era. The Iditarod dates back to the 1925 Serum Run from Nenana to Nome.
- **LOCATION OF TRAIL:** The Yukon Quest trail is entirely inland and can experience the severe winter weather of the interior, whereas the Iditarod runs inland to the coast and can experience severe coastal winds near the finish.
- **NUMBER OF SLEDS ALLOWED:** Yukon Quest rules say that only one sled can be used by a competitor and cannot be replaced without special permission of the Race Marshal and rarely without a time penalty. Iditarod rules say competitors can replace sleds, using a maximum of three during the race. Because of this difference, Yukon Quest mushers tend to use heavier, more robust sleds to accommodate trail conditions across the 1,000 mile route, whereas Iditarod mushers are able to use lighter sleds at strategic points in the race.

Why does the race direction alternate each year?

This was the vision of the Yukon Quest founders, Roger Williams and Leroy Shank, who wanted the race to respect the true history of arctic mushing, which knew no borders and which followed the "old highways of the North," the Yukon River and its tributaries, which is almost perfectly divided between Alaska and the Yukon. Alternating the location of the Race Start gives mushers the experience of 'coming and going' to their destination and offers greater variety as each direction presents different challenges. This also allows each community to experience the excitement of both starts and finishes.

Why is there a mandatory 36-hour layover in Dawson City?

Dawson City was the home of the Klondike Gold Rush and is still famous for its unique Northern hospitality today and unique 1898-era buildings. The Yukon Quest stops here for a good rest, just like the trappers, mail carriers and mushers did over a century ago.

The halfway point in the race is a good time for the mushers to rest. Although the dogs work on an approximately even run-rest schedule, the mushers do not, and replenishing their energy during their mandatory Dawson City layover allows them to be as fresh as possible for the second half of the race.

All Yukon Quest sled dogs receive at least one, and often more, complete physical examinations by the Yukon Quest Veterinary Team during their rest in Dawson City to be sure that they are ready to compete in the remainder of the race.

The 36-hour mandatory layover also gives the dog handlers a chance to work with and exercise their team's dogs—this is their only opportunity to do so during the entire race.

Where does the word “mushing” originate?

“Mushing” is a general term for any transport method powered by dogs and includes carting, pulka, scootering, sled dog racing, skijoring, freighting, and weight pulling. More specifically, it implies the use of one or more dogs to pull a sled on snow. The term is thought to come from the French word *marche*, or go. It is the command to the team to commence pulling—Mush! Although this term is seldom used in the modern day, it still gives name to the sport.

How long does the race take?

The winner and frontrunners in the Yukon Quest take approximately 10 days. The record for the fastest time, set by Allen Moore in 2014, is 8 days, 16 hours and 51 minutes (*the trail was shortened in 2014, re-routed due to trail conditions). Red Lantern winners and others at the back of the pack can take up to 16 days or more, depending on trail and weather conditions.

The Yukon Quest Trail is always called “historic” – what is historic about it?

The Yukon Quest trail links together a series of shorter travel routes that were the only means of winter travel over a century ago. When Yukon Quest founders began looking for a route to follow between Fairbanks and Whitehorse, they resurrected many historic routes and combined them to cover 1,000 miles. More information about the history can be found in the following section.

The Yukon Quest Trail

- Checkpoints, Dog Drops and Facts -

Fairbanks Official 2020 Start

Population: approximately 32,751

Fairbanks is Alaska's second largest city and the Start for the 2020 Yukon Quest 1,000 Mile International Sled Dog Race. The Yukon Quest trail near Fairbanks was formerly a freight and mail route in the early 1900s.

Along with Whitehorse, Yukon, Fairbanks alternates as the Start and Finish in the Yukon Quest International Sled Dog Race.

The start line will be located at the Morris Thompson Cultural and Visitors Center, 101 Dunkel St, in downtown Fairbanks. The dog yard is open to the media and public until 10am, at which point media are required to get set up in the chute in preparation of the start of the race. The checkpoint building for the 2020 race is the Yukon Quest's Log Cabin located at 550 1st Ave. Public and media will be allowed in the upstairs area of the Log Cabin. Downstairs will be off-limits to anyone other than Race Personnel. There are no public restrooms in this building. Local businesses in the downtown area welcome potential customers, and some may offer their restrooms.

Internet: There will be no internet available for media at the checkpoint. Connectivity is limited and will be locked for **race operations only**. Internet is available at nearby cafés downtown and some hotels.

Fairbanks to Two Rivers

(approximately 73 miles or 117 km)

Trail Information: As mushers leave the start line, the race proceeds along the Chena River from just below the Cushman Street Bridge to the Nordale Bridge. There are several spots where the teams can be seen passing by.

Two Rivers Official Checkpoint

Two Rivers has been an official checkpoint since 2009. The Official Checkpoint in 2020 will be located at Mile 53.5 (or so) on the left/north side.

There will be two trailers used for the checkpoint; the main trailer will host the main checkpoint area, and the public hangout area. The Communications trailer is off limits to anyone other than the Two Rivers volunteers, vets and officials. At no time will any media be allowed in this trailer. Generator power provides electricity for essential equipment and every effort will be made to provide power for computers.

Internet: A wireless network will be available at the checkpoint, but is provided via Satellite. Satellite systems can be slower and easily bogged down by large downloads and several computers. **Access to Internet will be made available by the PR Team.** Please respect internet service by using it only for race-related needs.

Checkpoint food is only for mushers, staff, and volunteers. The Angel Creek Lodge and Chena Hot Springs Resort are nearby and both serve meals during their regular business hours. They also offer wireless internet and rooms.

Pleasant Valley Store is located at 23.5 Mile Chena Hot Springs Road and has food, gas and diesel for sale.

Two Rivers to Mile 101

(approximately 41 miles or 66 km)

Trail Information: Sled dog teams will be crossing Chena Hot Springs Road at 27 mile. Please be cautious and do not get in the way of the volunteer flaggers and dog teams on the road.

Mile 101 Official Checkpoint (*possible layover)

**Note: the 2020 Yukon Quest Official Rules require a mandatory 4-hour stop at either Mile 101 or Central, musher's choice. Start time differential will be added onto layover.*

This is a small set of cabins, a staging area at Mile 101 on the Steese Highway. It is an important checkpoint because it is at the base of Eagle Summit.

There will be two trailers used for the checkpoint; the main trailer will host the main checkpoint area, and the public hangout area. The Communications trailer is off limits to anyone other than the Mile 101 volunteers, vets and officials. At no time will any media be allowed in this trailer.

There are no food, cooking or sleeping facilities for media at Mile 101. The only kitchen available is in the main cabin, however, it is exclusively for use by the Checkpoint.

Internet: There will be no internet available for media at Mile 101. Connectivity is limited and will be locked for **race operations only**.

There is no power available for media at Mile 101. Only race operations will have access. Please ensure your equipment is fully charged before arriving.

There is no fuel available at Mile 101, so bring enough fuel to idle your vehicles for extended periods of time at cold temperatures.

Mile 101 to Central

(approximately 28 miles or 45 km)

Central Official Checkpoint (*possible layover)

Population: 96

**Note: the 2020 Yukon Quest Official Rules require a mandatory 4-hour stop at either Central or Mile 101, musher's choice. Start time differential will be added onto stop.*

Formerly know as “Central House”, Central was originally built in 1894, after the discovery of gold in the Circle Mining District.

Central Corner hosts the checkpoint. The roadhouse has a full menu, bar, gas, small grocery store and rooms. There are no public restrooms available here, please use the port-a-potties outside the roadhouse. Central Corner generously opens their place of business up to use as the checkpoint. This is a restaurant and tables are for paying customers; they are not for exclusive media use. Please be conscious of the space you are occupying and justify it with an appropriate sized purchase for the time you spend at one of their tables.

Rooms are available at the Central Corner, reservations are strongly recommended as they do fill up (1-907-520-5800). Power is available through Central Corner’s outlets.

Internet: A wireless network will be available at the checkpoint, but is provided via Satellite. Satellite systems can be slower and easily bogged down by large downloads and several computers. **Access to Internet will be made available by the PR Team.** Please respect internet service by using it only for race-related needs.

Central to Circle City

(approximately 74 miles or 119 km)

Trail Information: After leaving Central, teams can be viewed on the left, traveling toward Circle Hot Springs for 8 miles. Near the springs, the trail leaves the road. The road between Central and Circle is a very winding, rough, and dangerous 30 mile road. Give yourself at least an hour for this drive and take it slow. The trail can be seen from any Birch Creek over-view as well as from the bridge over Birch Creek (MP 147). From that point, teams are out of site from the road as they travel the last 26 miles to the Circle City Checkpoint.

Circle City Official Checkpoint

Population: 104

Located at the eastern end of the Steese Highway 160 miles (257 km) northeast of Fairbanks, Circle City was established in 1893 as a supply point for goods shipped up the Yukon River and then overland to the gold mining camps.

The checkpoint is hosted in the community’s Fire Hall. The space is limited, and shared by everyone including mushers, public, volunteers, vets, officials, handlers and media. Inside the Fire Hall there are two rooms that are off limits.

Circle Public School will provide media with sleeping space in the gymnasium and Internet connectivity on a pay-per-night basis. The cost is \$35 which includes shower, or \$5 for shower only.

Food for media and public may be available through the Tribal Council. Any food at the Fire Hall is for checkpoint volunteers and mushers only. The Fire Hall has a very limited power supply and will be for race operations only as additional usage could short circuit the power supply.

Fuel is available for purchase at H.C. Company Store (hours may vary).

Internet: A wireless network will be available at the checkpoint, but is provided via Satellite. Satellite systems can be slower and easily bogged down by large downloads and several computers. **Access to Internet will be made available by the PR Team.** Please respect internet service by using it only for race-related needs. A wireless network is also available at Circle Public School and media is encouraged to use this service as needed.

Circle City to Eagle

(approximately 160 miles or 256 km)

Trail Information: This section can be viewed only by air. Approximately halfway between Circle City and Eagle, teams travel past the cabin of Charlie Biederman who delivered mail by dog sled with his father Adolphe between Circle and Eagle. The trail follows the flat, sometimes soft and sometimes icy Yukon River toward Eagle.

Slaven's Roadhouse Dog Drop

No road access, no power, no internet, no accommodations, no fuel, no food.

Slaven's Roadhouse (now operated by the U.S. National Parks Service) is located in the Yukon-Charley Rivers National Preserve. Only accessible in winter by dog sled, snow machine or air, the Roadhouse provides a warm and quiet reprieve for Yukon Quest mushers. It serves as an official Dog Drop and is staffed by NPS employees who volunteer their time as well as a Yukon Quest Veterinarian and Race Judge. **Permits to film in this area are required.**

Travel to this area is not recommended without a guide or previous experience. Be prepared to provide your own outdoor sleeping amenities and food and prepare for very cold temperatures. Weather is often a factor and you may be stranded. The race assumes no responsibility for any media travel. All supplies have to be flown into Slaven's Roadhouse before the race starts and food is carefully calculated for the volunteers' duration of stay. There are no provisions for sleeping indoors nor extra food outside of volunteer food.

Eagle Official Checkpoint (*Mandatory 4-hour layover)

Population: 85

There is no road access to Eagle in the winter. The town of Eagle, perched upon a level gravel bench above the Yukon River, is only accessible in wintertime by air, snowmobile or dog team. The checkpoint is at the Old Schoolhouse, a small building centrally located.

The Eagle School is allowing race personnel and media to sleep at the school on a pay-per-night basis. The Student Council will be selling dinner on Feb. 3, 4, 5 & 6. The price will be \$10 USD. To minimize disruption to students we will utilize floor space in the gymnasium or an equipment room, dependent on their schedule. The Riverside Hotel is also open from Monday to Saturday from 10am to 5pm. For rates, call 1-907-547-7000.

The food at the checkpoint is off-limits to anyone except mushers and local checkpoint volunteers. There are some groceries available at the Eagle Trading Company.

Fuel is available for purchase at two places in Eagle, at Telegraph Hill Services (run by Bo), the gas station just outside of town, as well as at the Eagle Trading Company.

Internet: Wireless Internet is provided at the local public library for 24hrs/day during the race. This is a public library and locals use it on a daily basis. The floor space between the book shelves is not for media sleeping. Sufficient power supply is also provided at the local public library. There will be no wireless Internet provided at the Old Schoolhouse checkpoint for media.

Eagle to Dawson City

(approximately 150 miles or 241 km)

Trail Information: From Eagle it is 18 miles to the top of American Summit. Teams follow the Taylor Highway, which is closed in winter, to join the Fortymile River valley. At the confluence of the Fortymile and Yukon Rivers is the historic town site of Forty Mile. From there, it is 50 miles (80 km) up the Yukon River to Dawson City.

The Border: It is on this leg of the trail that Yukon Quest mushers cross the US-Canada border. Any media travelling from Eagle to Dawson City MUST clear Canada Customs upon arrival.

Dawson City Official Checkpoint and 36-Hour Mandatory Layover

Population: 1,375

Dawson City was the final destination for over 100,000 stampeders during the world famous, Klondike Gold Rush of the late 1890s. In its heyday, Dawson City boasted a population of 40,000. It was called “Paris of the North” and was the largest metropolis on the North American continent north of San Francisco and west of Winnipeg.

The checkpoint is located in the Dawson City Visitors Center on Front Street. Inside the checkpoint there will be a local food concession that is hosted by Tin Roof. There are many other local restaurants around town, as well as several grocery stores and gas/service stations.

The hotels in town tend to book up during the Yukon Quest, so be sure to make reservations early.

The Dawson City dog yard is scheduled to be at the Yukon River government campground across the ice bridge unless otherwise stated. The dog yard may have “open” hours, designated by the Race Marshal. Unless authorized, vehicles are not permitted in the dog yard. Visitors must park at the dog yard entrance.

Internet: Limited wireless Internet is available at the checkpoint, all provided by the Yukon Quest. **There will be a cap on usage. Once the cap has been reached, wireless will no longer be available.** Please respect Internet service by using it only for race related needs. It is recommended to bring an Ethernet cable as the PR Team will hard wire media into the modem, should wireless be unavailable. Wireless Internet is a complimentary service provided by the Yukon Quest, therefore patience is appreciated with any connectivity issues.

Dawson City to Pelly Crossing

(approximately 210 miles or 337 km)

Trail Information: The trail leaves Dawson City ascending the 4,002-foot King Solomon’s Dome. The trail then follows mining roads to Pelly Crossing. Teams travel 99 miles (159 km) to the remote Scroggie Creek. Teams descend through the Black Hills to Stepping Stone, a hospitality stop approximately 35 miles from Pelly Crossing. Then along the Pelly River to Pelly Crossing. The only view of the trail is from the air.

Scroggie Creek Dog Drop

An abandoned cabin on the shore of the Stewart River lies dormant except during the Yukon Quest.

There is no road access or services for media. There is no internet connection. Travel to this area is not recommended without a guide or previous experience. Be prepared to provide your own outdoor sleeping amenities and food and prepare for very cold temperatures. The race assumes no responsibility for any media travel.

All supplies have to be flown into Scroggie before the race starts and food is carefully calculated for the volunteers’ duration of stay. There are no provisions for sleeping indoors nor extra food outside of volunteer food.

Pelly Crossing Official Checkpoint

Population: 353

Pelly Crossing is home to the Selkirk First Nation of Northern Tutchone people and following the completion of the North Klondike Highway in 1942, most of the inhabitants of nearby Fort Selkirk relocated to Pelly Crossing. Fort Selkirk is the oldest known and perhaps most historically significant permanent settlement in the Yukon.

The Checkpoint is housed in the community center. A community concession called the Questaurant is provided by the local school. Food will be available for purchase around typical meal times for limited hours. Meal times will be posted at the checkpoint each day. There are groceries, rooms and gas available at Selkirk Grocery just as you come into town.

Internet: Limited wireless Internet is available at the checkpoint, all provided by the Yukon Quest. **There will be a cap on usage. Once the cap has been reached, wireless will no longer be available.** Please respect Internet service by using it only for race related needs. It is recommended to bring an Ethernet cable as the PR Team will hard wire media into the modem, should wireless be unavailable. Wireless Internet is a complimentary service provided by the Yukon Quest, therefore patience is appreciated with any connectivity issues.

Pelly Crossing to Carmacks

(approximately 73 miles or 118 km)

Trail Information: From Pelly Crossing the trail travels through the L'Hutsaw Wetlands and then runs parallel to the Klondike Highway for five miles from McCabe Creek before joining the Dawson Overland Trail. The trail follows the Freegold Road for about 13 miles to Carmacks.

This section of trail is considered in most years to be a “fast and easy” section, although there are some short and steep hills.

McCabe Creek Dog Drop

The Kruse family's homestead on the Yukon River provides northern hospitality to the teams and race followers. This family graciously opens their shop to host this dog drop.

The food here is limited and prepared for mushers and race personnel. Please do not help yourself to this buffet style set up, it is not meant for the general public and media. There are no sleeping facilities here for media.

There is no access by vehicle into the McCabe Creek Dog Drop from the highway. The walk-in is approximately 20 minutes.

Carmacks Official Checkpoint

Population: 493

Carmacks gets its name from George Carmack, one of the men credited with making the gold strike at Rabbit Creek (renamed Bonanza Creek), near Dawson City, unleashing the Klondike gold rush in 1896. Before that, he discovered coal in and around Carmacks and this, his home, became a trading post – Carmack's Post.

Carmacks is located at the confluence of the Yukon and Nordenskiöld Rivers. It lies 112 miles (180 km) north of Whitehorse on the North Klondike Highway. The checkpoint is set up in the community center, and a food concession is available inside.

Parking is limited and vehicle plug-in is only available for the race personnel and volunteers. Be prepared to start and idle your vehicle on a regular basis in cold weather. Connecting personal power cords to those already plugged into other vehicles will not be tolerated.

Sleeping arrangements can be made with the Carmacks Hotel. There are two service stations in town and one restaurant. Floor space within the checkpoint is for race personnel, volunteers & handlers. Please respect this space and keep voices down during checkpoint operations.

Internet: Limited wireless Internet is available at the checkpoint, all provided by the Yukon Quest. **There will be a cap on usage. Once the cap has been reached, wireless will no longer be available.** Please respect Internet service by using it only for race related needs. It is recommended to bring an Ethernet cable as the PR Team will hard wire media into the modem, should wireless be unavailable. Wireless Internet is a complimentary service provided by the Yukon Quest, therefore patience is appreciated with any connectivity issues.

Carmacks to Braeburn

(approximately 77 miles or 124 km)

Trail Information: From Carmacks, the trail runs away from the Yukon River on uneven terrain, following narrow trails and creeks with overflow. Approximately 15 miles from Braeburn are Coghlan Lake and the Chain Lakes area including Frank and Mandanna Lakes. The trail crosses the North Klondike Highway near Braeburn Lodge.

Braeburn Official Checkpoint (*Mandatory 8-Hour Layover)

Braeburn Lodge is famous for its giant food, especially its 12-inch cinnamon buns. At this highway rest stop, a former roadhouse on the Dawson Overland Trail, Yukon Quest mushers must take their mandatory eight-hour layover .

Braeburn Lodge has been an official checkpoint since 1999. The owners of the Braeburn Lodge turn their business over to host the checkpoint. The lodge has a full menu, gas, and the best baked good selection on the trail. There are no public restrooms available here for non-paying customers, please use the outhouses.

The owner of the lodge is generous to open the place of business up to use as the checkpoint. It is however still an operating business and is not meant to be used for free, so please be conscious of the space you are occupying and justify it with an appropriate sized purchase for the time you spend at one of their tables.

Internet: Limited wireless Internet is available at the checkpoint, all provided by the Yukon Quest. **There will be a cap on usage this year. Once the cap has been reached, wireless will no longer be available.** Please respect Internet service by using it only for race related needs. It is recommended to bring an Ethernet cable as the PR Team will hard wire media into the modem, should wireless be unavailable. Wireless Internet is a complimentary service provided by the Yukon Quest, therefore patience is appreciated with any connectivity issues.

Braeburn to Whitehorse

(approximately 100 miles or 161 km)

Trail Information: The trail runs on the old Dawson Overland Trail, which is also known as the TransCanada Trail. Then the trail follows the Yukon River from the Takhini River Bridge for approximately 15 miles into Whitehorse.

Teams can be seen following the trail under the Takhini River Bridge, at Km. 4.5 of the North Klondike Highway (Mayo Road).

Whitehorse Official 2020 Finish

Population approximately 29,092

The Yukon Quest Finish Line is at Shipyards Park in downtown Whitehorse.

Whitehorse developed during the Klondike Gold Rush as a transportation hub. Situated at the head of navigable waters on the Yukon River, it was an important stop on the journey to the gold fields. There are restaurants, hotels, grocery stores and service stations as well as souvenir and gift shops.

Internet: Free wireless Internet is available at Shipyards Park, provided by the City of Whitehorse. Due to high usage, the quality and speed may be low. Most accommodations have wireless Internet available to guests (may be a fee), as do some local restaurants with purchase of food.

2020 Race Schedule Approximation Estimated Arrival & Departure Times

as of 7/15/19

Checkpoints Drops	Dog	Approx Miles from Last CP	Minimum Mandatory Layover	Date & Time of Arrival	
				First Musher Arrival	Last Musher Depart
Fairbanks		-		-	Sat Feb 1 12:30
Two Rivers (Mile 53)		73		Sat Feb 1 18:00	Sun Feb 2 13:00
Mile 101		41	~ 4hrs ~ OR	Sun Feb 2 02:00	Sun Feb 2 20:00
Central		28	~ 4hrs ~	Sun Feb 2 10:30	Mon Feb 3 12:30
Circle City		74		Mon Feb 3 00:00	Tues Feb 4 10:00
Slaven's Roadhouse		60		Mon Feb 3 13:00	Wed Feb 5 07:30
Eagle		100	~ 4 hrs ~	Tue Feb 4 07:30	Fri Feb 7 06:00
Dawson City		150	~ 36 hrs ~	Wed Feb 5 16:30	Mon Feb 10 05:30
Scroggie Creek		105		Fri Feb 7 22:00	Tues Feb 11 01:30
Pelly Crossing		105		Sat Feb 8 17:30	Thu Feb 13 04:00
McCabe Creek		34		Sun Feb 9 02:00	Thu Feb 13 17:30
Carmacks		39		Sun Feb 9 07:30	Fri Feb 14 07:30
Braeburn		77	~ 8 hrs ~	Sun Feb 9 23:30	Sat Feb 15 09:00
Whitehorse		100		Mon Feb 10 15:30	

Note: Starting time differentials (3 min between teams) are adjusted either in Mile 101 or Central depending on the mushers choice.

*These are estimated arrival and departure times based on previous statistics. Keep in mind that this is an approximation; the route can change or something else can happen to throw these times off.

Glossary of Terms on the Trail

Alaskan Husky: Any northern-type dog. Typically possesses good coat, feet, excellent appetite and a strong desire to pull

Booties: Sock-like footwear to protect dogs' feet.

Brake: Heavy metal toothed device used to stop the sled. Musher's step on the brake, digging the teeth into the hard-packed trail.

Chute: Well-defined takeoff area at the start line of a sled dog race, as well as at the finish line.

Come gee! Command for a U-turn to the right.

Come haw! Command for a U-turn to the left.

Dog in a basket: Any dog carried in the sled.

Double or tandem hitch: Dogs are connected to the gang-line in pairs.

Double or tandem leader: Two dogs who lead the team side by side.

Dropped dog: A dog that is officially out of the race while the rest of the team continues on. Reasons for dropping a dog vary; loss of appetite, females entering heat cycle, minor injuries, or their expertise is no longer required for the trail ahead. All dropped dogs are examined by Race Veterinarians before being returned to the musher's handlers.

Easy! Command used to slow down the team. Good lead dogs will ease off their pace, and some teams are trained so well that they will "walk" downhill.

Food drop: In preparation for a long-distance race, it is the day a couple of weeks before the race start when dog food, musher food, and supplies for the trail must be handed over to the race organization for distribution to the various checkpoints.

Gangline or towline: Main line that runs forward from the sled. Generally made of polyethylene or nylon. Dogs are connected to the gangline by tug and neck lines. Neck lines are optional, but must be carried at all times.

Gee! Command for right turn.

Haw! Command for left turn.

Lead dog or leader: Dog(s) that run in front of the team. Generally they are both intelligent and reliable. Most mushers have several dogs in their team capable of leading.

Line out! or Stay out! Command to lead dog(s) to pull the gangline straight from the sled. Used mostly while hooking and unhooking the dogs into the team.

Malamute: A large, heavy northern breed of sled dog suited for pulling heavy loads, recognized by the American and Canadian Kennel Clubs.

Mandatory gear: Items mushers are required to carry at all times, according to Race Rules. Yukon Quest Mandatory Gear includes: sleeping bag, hand axe, snowshoes, dog food cooker, veterinary records, promotional materials, and eight booties for each dog. All mandatory gear is "checked" at every checkpoint of the race. Musher's may be penalized if they do not possess all their mandatory gear.

Mat or pad: Device used to slow the sled, typically a piece of snow machine track dragged between the sled runners.

Mush! Hike! All right! Let's Go! (and other such expressions) Commands to start the team.

Neck-line: Short line used to connect the dog's collar to the gang line. Used to keep dogs from moving off to the side of the trail and/or interfering with dogs behind them. Some modern harness systems do not use necklines. While neck-lines must be carried by all Yukon Quest mushers, their use is optional unless mandated by the Race Marshal or Race Judges.

On-by! or Straight-ahead! Command used to continue forward. May be used when passing another team, directing a lead dog NOT to turn, or to pass obstacles like open water or rabbits.

Overflow: Water running on top of the ice on a frozen river, lake or stream. A race hazard, sometimes referred to as glaciers once they freeze.

Pedaling: Pushing the sled with one foot while the other remains on the runner.

Poling: Using cross-country ski poles (one or two) to help push the sled forward.

Siberian Husky: Medium-sized northern dog breed recognized by the American and Canadian Kennel Clubs. Typically smaller and faster than Malamutes.

Side hill: A trail running parallel to the slope of the terrain, causing the sled to slide sideways downhill.

Sled bag: A bag lining the sled basket to keep the musher's gear from falling out or getting full of snow.

Snow hook or snow anchor: Heavy piece of metal, usually with sharpened spikes, attached to the sled by a line. It is buried in the snow to hold the team and sled for a short stop.

Stake-out line: A long cable or chain with shorter pieces of cable or chain extending with clips to attach to dog collars. Used to spread out a dog team during longer rest stops, such as Dawson City.

Swing or point dog: Dog(s) that run directly behind the leader(s).

Team dog: Any dog other than a leader, swing or wheel dog.

Toggles: Small pieces of ivory or wood, traditionally used by Inuit, to fasten tug lines to harnesses.

Trail! Request for trail right-of-way; used when passing another team.

Tug line: The line that connects the dog's harness to the gangline transferring the power and energy of the dog to the sled.

Wheel dog: Dog(s) that pull directly in front of the sled. They typically have a heavier load and are often the strongest dogs on the team. Good wheel dogs will assist the musher in navigating turns and side-hills.

Whoa! Command used to halt the team, accompanied by heavy pressure on the brake and/or mat.

Quick “First” Facts

First musher to Start the Yukon Quest:	Pecos Humphries, 1984
First Yukon Quest Champion:	Sonny Lindner, 1984
First Woman to Cross the Finish Line:	Lorinna Mitchell, 1984
First Canadian Yukon Quest Champion:	Bruce Johnson, 1986
First European Yukon Quest Champion:	Hans Gatt, 2002
Youngest Musher to Enter the Race:	Jeninne Cathers, 1989
First Father-Daughter Team:	Ned and Jeninne Cathers, 1989
First Husband-Wife Team:	Linda and Will Forsberg, 1990
First Mother-Daughter Team:	Connie and Terri Freichs, 1990
Fastest Winning Time:	*8 days, 16 hours, 51 minutes Allen Moore, 2014
Slowest Winning Time:	14 days, 9 hours, 17 minutes Bruce Johnson, 1986
Longest Red Lantern Run:	20 days, 9 hours, 16 minutes Ty Halvorson, 1988
Shortest Red Lantern Run:	12 days, 5 hours, 3 minutes Blake Freking, 2005
First 2-Time Champion:	Charlie Boulding, 1991, 1993
First 3-Time Champion:	Hans Gatt, 2002, 2003, 2004
First 4-Time Champion:	Lance Mackey, 2005, 2006, 2007, 2008
Closest Finish:	Hugh Neff beat Allen Moore across the finish line by just 26 seconds in 2012.

*Race was shortened, rerouted due to trail conditions.

2019 Race Results

Place	Purse	Quest Guest	Musher	Total Time dd:hh:mm

1984	Sonny Lindner	12 days, 0 hours, 5 mins

Golden Harness Award

Presented to the Champion's lead dog(s).

2019	Jeep & Sluice (<i>Brent Sass</i>)	2005	Hobo Jim & Larry - (<i>Lance Mackey</i>)
2018	Commando & Dutch (<i>Allen Moore</i>)	2004	Havana & Felix - (<i>Hans Gatt</i>)
2017	Keeper & Anchor (<i>Matt Hall</i>)	2003	Havana & Milos - (<i>Hans Gatt</i>)
2016	George Costanza & Stevie Ray (<i>Hugh Neff</i>)	2002	Havana & Bonzo - (<i>Hans Gatt</i>)
2015	Basin & Sound (<i>Brent Sass</i>)	2001	(<i>Tim Osmar</i>)
2014	Quito (<i>Allen Moore</i>)	2000	Pedro - (<i>Aliy Zirkle</i>)
2013	Quito (<i>Allen Moore</i>)	1999	Pretty Boy - (<i>Ramy Brooks</i>)
2012	Walter & Juanita - (<i>Hugh Neff</i>)	1998	Clovis - (<i>Bruce Lee</i>)
2011	Diesel & Chung - (<i>Dallas Seavey</i>)	1997	(<i>Rick Mackey</i>)
2010	Stitch & Kinvig - (<i>Hans Gatt</i>)	1996	Gin Gin - (<i>John Schandelemeir</i>)
2009	Inuk & Nemo - (<i>Sebastian Schnuelle</i>)	1995	Buck & Grizzly - (<i>Frank Turner</i>)
2008	Handsome & Rev - (<i>Lance Mackey</i>)	1994	(<i>Lavon Barve</i>)
2007	Hobo Jim & Lippy - (<i>Lance Mackey</i>)	1993	(<i>Charlie Boulding</i>)
2006	Hobo Jim & Larry - (<i>Lance Mackey</i>)	1992	Tess & Arrow —(<i>John Schandelemeir</i>)

Veterinarians' Choice Award

Presented to the musher who demonstrates the best overall care for his or her dogs while remaining competitive throughout the race. Awarded by the Veterinary Team, it is a legacy for aspiring mushers to emulate in the humane treatment and care of their team.

2019	Brent Sass	2005	Gerry Willomitzer
2018	Allen Moore	2004	Dave Dalton
2017	Paige Drobny	2003	Dan Kaduce
2016	Matt Hall	2002	Bill Stever
2015	Brent Sass	2001	Frank Turner
2014	Matt Hall	2000	Dave Olesen
2013	Normand Casavant	1999	Sepp Herman
2012	Kristy Berington	1998	Dave Olesen
2011	Mike Ellis	1997	Ned Cathers
2010	Joshua Cadzow	1996	John Schandelmeier
2009	Michelle Phillips	1995	Don Hibbs
2008	Lance Mackey	1994	John Schandelmeier
2007	Sebastian Schnuelle	1993	Jay Cadzow
2006	William Kleedehn	1992	Linda Forsberg

Dawson Award

Awarded to the first musher into Dawson City who then goes on to complete the race. The prize is 2 ounces of Klondike placer gold.

2019	Brent Sass
2018	Allen Moore
2017	Hugh Neff
2016	Brent Sass
2015	Brent Sass
2014	Allen Moore
2013	Hugh Neff
2012	Allen Moore
2011	Ken Anderson
2010	Hans Gatt
2009	William Kleedeohn
2008	Lance Mackey
2007	Lance Mackey
2006	Lance Mackey
2005	Hugh Neff

2003	Hans Gatt
2002	Peter Butteri
2001	Tim Osmar
2000	Jack Berry
1999	Ramy Brooks
1998	Andre Nadeau
1997	John Schandelmeier
1996	John Schandelmeier
1995	Larry Smith
1994	Kathy Swenson
1993	Charlie Boulding
1992	John Schandelmeier
1987	Jeff King

Rookie of the Year Award

Presented to the highest placed Rookie finisher.

2019	Martin Apayauq Reitan	2005	Lance Mackey
2018	Vebjorn Aishana Reitan	2004	Zack Steer
2017	Katherine Keith	2003	Martin Massicotte
2016	Tom Frode Johansen	2002	Shannon Brockman
2015	Damon Tedford	2001	Joran Freeman
2014	Matt Hall	2000	Cim Smith
2013	Scott Smith	1999	Carrie Farr
2012	Jake Berkowitz	1998	Andre Nadeau
2011	Dallas Seavey	1997	Keizo Funatsu
2010	Joshua Cadzow	1996	Rick Mackey
2009	Martin Buser	1995	Bill Stewart
2008	Ken Anderson	1994	Lavon Barve
2007	Aaron Burmeister	1993	Jay Cadzow
2006	Richie Beattie	1992	John Peep

Challenge of the North Award

Presented to the musher who best exemplifies the "*Spirit of the Yukon Quest*" - a spirit that compels one to challenge the country and win. Awarded by the Race Marshal and Judges.

2019	Remy Leduc
2018	Nathaniel Hamlyn
2017	Torsten Kohnert
2016	Dave Dalton
2015	Lance Mackey
2014	Matt Hall
2013	Darren Lee
2012	Michael Telpin
2011	Kelley Griffin
2010	Jocelyne LeBlanc
2009	Newton Marshall
2008	Brent Sass
2007	Mike Jayne
2006	Regina Wycoff
2005	William Kleedeohn
2004	Marcel Marin
2003	Frank Turner
2002	Wayne Hall
2001	Joran Freeman
2000	Hugh Neff
1999	Aliy Zirkle
1998	Thomas Tetz
1997	David O'Farrell
1996	Doug Harris
1995	Larry Smith
1994	Cor Guimond
1993	Jeff Mann
1992	Dave Sawatsky

Sportsmanship Award

Presented to the musher exhibiting the best sportsmanship along the trail. The selection is made by their fellow mushers.

2019	Rob Cooke
2018	Riley Dyche
2017	Ben Good
2016	Laura Neese
2015	Lance Mackey
2014	Brian Wilmshurst
2013	Brent Sass
2012	Paige Drobny
2011	Mike Ellis, Allen Moore & Brent Sass
2010	Sonny Lindner
2009	Brent Sass
2008	Kelley Griffin
2007	Sebastian Schnuelle
2006	Wayne Hall
2005	Ed Hopkins
2004	Thomas Tetz
2003	John Schandelmeier
2002	Jim Hendrick
2001	Cor Guimond
2000	Rusty Hagen
1999	Jack Berry
1998	Rusty Hagen
1997	John Schandelmeier
1996	Mark May
1995	Jay Cadzow
1994	John Barron
1993	John Gourley
1992	Tim Mowry
1986	Don Glassburn
1985	Joe May

Red Lantern Award

Presented to the last official finisher.

2019	Hendrik Stachnau
2018	Nathaniel Hamlyn
2017	Sebastien Dos Santos Borges
2016	Gaëtan Pierrard
2015	Rob Cooke
2014	Jerry Joinson
2013	Dyan Bergen
2012	Michael Telpin
2011	Hank DeBruin
2010	Jocelyne LeBlanc
2009	Iris Wood Sutton
2008	Kyla Boivin
2007	Bob McAlpin
2006	Regina Wycoff
2005	Blake Freking
2004	Tom Benson
2003	Paul Geoffrion
2002	Wayne Hall
2001	Bruce Milne
2000	Deborah Bicknell
1999	Peter Ledwidge
1998	Brian O'Donoghue
1997	Raid Zielinski
1996	Stan Nijootli
1995	Dieter Zimgibi
1994	Barry Emmett
1993	Jeff Currey
1992	George Cook III
1991	Beat Korner
1990	Esa Ekdahl
1989	Peter Butteri
1988	Ty Halvorson
1987	Allen Dennis
1986	Michael Schwandt
1985	Jim Bridges
1984	Shirley Liss
